Teaching Experience

This last spring, I graduated from BYU and completed my first teaching experience as an intern at Westside Elementary in the first grade. During my schooling at BYU, I had practicums at Hobble Creek Elementary where I worked in a Kindergarten class and at Westside Elementary, where I worked in a third grade class. This will be my first full year working in the third grade and I am excited to work with my new team and at Santaquin Elementary. I can't wait for this new adventure and all the new things I will learn.

Hobbies/Interests I love to run, exercise or participate in anything active or outside. I also love to shop, watch movies and spend time with friends and family—especially my niece and nephew.
